

EASTERN IOWA DX ASSOCIATION NEWSLETTER

AUTUMN, 1984

WOMJN/RPTR 144.59/145.15

EIDXA Officers:

President: Joe Finkstein WOMJN
Secretary: Gary Letchford KOLUZ
Vice President: Tom Lindgren WOMP

Meeting Announcement

The Fall meeting of the Eastern Iowa DX Association will be held October 12, Friday, (7:30PM) at the REC building in Marion.

The meeting agenda includes election of club officers and a slide tape show of the Jim Smith Heard Island DX-pedition.

Club dues will be due at this meeting. The fee being four dollars.

CVARC Hamfest Reminder..

The Cedar Valley Amateur Radio Club in Cedar Rapids is sponsoring its annual hamfest Sunday Oct 7th.

QSLs ?

KOCF, Craig, has asked that anyone interested in ordering club QSL cards contact him at the upcoming club meeting.

The President's Corner.....

In case any of you hadn't noticed, fall is here. But with our good ol' Iowa weather, sometimes it's really hard to tell what season it is. The other day it was 88 degrees, and the very next day it was in the low 40's. Anyway, it is fall and that signals the start of a new contest season. By now, most of the antenna work should just about be done and the radios all checked for the upcoming season. Speaking of antennas, watch out for Tom, W0VP. Word has it that he has been doing a lot of antenna work lately, and that he is putting up a beam for 40 meters.

I hope all of you had a good summer. Our summer dinner meeting was a lot of fun and I hope it will continue to be an annual tradition for the EIDX. We had 37 people attend and it was a great opportunity to meet some of the YLs and XYLs, and for them to get acquainted with each other. One of the highlights of the evening was calling out the Sheriff's Department and Iowa Highway Patrol to search the rain covered highways and ditches for Roger, N4RR. Roger was heard on the way into town for the dinner meeting, but he never showed up. Turns out that Roger and his family were alive and well; they had just forgotten to bring the suitcase with their clothes. So not having clothes for the evening, Roger decided to go, in his "cut-off shorts", somewhere else for dinner. The only problem was that Roger forgot to tell any of us. Atta boy Rog! It seems funny now, but we really were concerned that night of June 16th.

Having just quickly scanned the last two issues of "CQ" magazine, it would seem that congratulations are in order. Our own W0EJ took first place for the Zero district in the 1983 CQ WW DX Phone contest. Also, K0LUZ and W0VP finished second and third in the Zero district in the 1983 CQ WW DX CW contest. Looking at the club scores the EIDX didn't do too badly either. We finished 13th out of 48 US club stations in CQ WW DX contest. Not bad!

As I noted in our last newsletter, the computerized RTTY Radio Bulletin Board System (RBBS) has been up and running on a full time basis since the end of April. For the most part, the system has been playing pretty well using W4NIN's Arden 3000 and Kantronics interface unit; except for the night of the lightning hit. One of our prospective new members, K8CEH-Steve, has donated a VHF receiver and transmitter for use on the RBBS (tnx Steve). As soon as Bob (W4NIN) and I can find the time, we will be building up this new radio and another interface, so Bob can have his Arden and Kantronics back. If any of you would like to help with this project, please give me a call.

Even though the summer activity has been relatively light on the RBBS, we are still having a lot of good info being put on the system. For example, info currently on the system includes DX tips, W0V propagation forecasts, ARRL bulletins, and summaries of both "QEZ DX" bulletin and "The DX Bulletin". If you have a home computer and are not yet using our RBBS; you are really missing a lot of fun, and maybe some good info too. Come and join us on 147.45 MHz. It's easy.

I received a nice note from Bill, W9AVE, of the Argonne (IL) Amateur Radio Club. They have a two meter repeater on 145.19 MHz. also, and they heard our repeater a number of times this summer during some of those really good VHF band openings. Bill wanted to let us know that if any of our members are ever in the Chicago area, be sure to check in on their repeater. I will also bring a copy of their newsletter, which Bill sent along, to our next meeting.

And speaking of our next meeting, it will be held Friday October 12, at 7:30 PM, at the REC Building in Marion. I hope all of you will be able to attend this meeting, as we will be electing officers (and collecting dues) for the 1984-85 year. The program for this meeting will be a slide show (with audio) of the Heard Island DXpedition, which I have heard is quite good. Thanks to Tom-K0VZR for getting this program.

I would like to take this opportunity to thank you for allowing me to serve as President this past year. I have truly enjoyed serving our club in this capacity, and I pledge my support to our new officers during the next year.

73

Joe-W0MJK

Antennas for Sale....

W0SNL has Hygain monobanders for sale. He will have them at the CVARC hamfest for quick pick-up. Contact him for further information. 377-8963.

Minutes of June 16 meeting....

Minutes of the EIDX meeting of June 16, 1984 which was held at the Long Branch Supper Club in Marion Iowa.

The meeting was called to order by our President, Joe. WOMJN at 8:10 P.M. The minutes of the previous meeting were read and approved.

Most members were accompanied by their wives or girlfriends. EIDX members attending were: AGOZ, KKOR, KZOC, WOPPF, KOCF, KOVN, KQVB, WOEJ, KOGT, KCOD, KOJSY, WOIZ, NBOH, WOMP, KOLUZ, W4NIM, WOVX AND WOMJN.

Treasurer reports a balance of \$178.35 in the treasury.

There was a discussion involving our weekly net on 145.19. A suggestion was made that during the summer months the net be suspended until the fall. A motion was made that the net should continue throughout the summer by Wade, WOEJ. Dave, WOVX seconded the motion and the motion carried.

Door prizes were given to a few lucky recipients. A special thank you was given Rockwell Collins Division and the Government Avionics Division for some of the door prizes. Also thanks go to Dave, WOVX, Gary, KOGT, and Bob, WOEAN for helping in organizing the dinner. Also a thank you goes to Joe, WOMJN for obtaining door prizes.

A motion was made and seconded to adjourn the meeting at 8:17 and motion carried.

Two videotapes were presented for entertainment. The first was a history of Collins Radio and the second was about the historic flight of W5LFL and his amateur communications from space. A good time was had by all !!

Respectfully Submitted,
Gary "Red" Letchford KOLUZ
Secretary Treasurer EIDX

Thanks.....

WOIZ wishes to thank the EIDX Membership for the "Golden Amateur Radio Anniversary" plaque presented at the summer meeting. It and the dinners were greatly appreciated by Iris and me. Many Thanks....

AKOM Writes....

Just a short note to let you know our new address for purposes of mailing the EIDX newsletter:

Steve Sutterer AKOM
6 Primgarden Ct.
St. Peters, Mo. 63376

I have been off the air since Dec., except for a stint in the ARRL DX CW contest, 80m/40m only. Did fairly well for no amp and low inverted vees at my in-laws place! But I'm closer to getting on the air...tonight I put up some wires for 40 and 20. Still have to get the feedlines into the house and run 110V to the desk, but maybe this week...

We moved into a new house about June 1. and have really been busy getting settled. The yard is once again a small one, a 70'x 120' lot. However, I'm optimistic about putting up the tower and beam. Should be a good location...from 28 ft. on the roof tonight I could see for miles in virtually any direction. I'll probably go with the THSDX again, maybe a half-sloper on 40, and try shunt feeding the tower on 80/160m. I have a feeling it'll be fail at best before it's all up. I am considering a Butternut vertical to get me by until then, but not sure a vertical is worth \$100 to me. I guess it would probably work well on 80/40, though.

Say hi to all. Congrats to all the guys on their SBDXCC's! If anyone is travelling through the area, give a shout. I monitor 147.600 simplex (the MVDXCC freq.) and the 146.67 repeater here regularly.

73, good DX!
Steve AKOM

Tidbits....

The repeater has been trouble free this summer. Thanks to Bob, W4NIM and Al, K0VM the machine is working better than ever. In addition to paying the repeater electric bill, Bob is also maintaining the RTTY bulletin board along with Joe, W0MJN. The RBBS has new software which makes it more user friendly thanks to Joe's software additions.

There are several new users on the RTTY 2 meter bulletin board, N8OH, K0JSH, W0EJ, W0SR, K0FZ, and W0VX. Dave, W0VX, has been typing in the highlights of the QAZ DX bulletin which makes interesting reading weekly. Dale, W0IZ, sporadically puts up the W0V prop forecasts on the system too.

HF RTTY is really challenging. W0IZ and myself, W0MP, have really enjoyed the DX chasing this summer. It seems it takes a little better propagation than a CW qso requires, but even so weak signal QSOs are very common. Some of the summer catches include HV, XT, 9V, A4, 9H, H2, 9N, FG and many more good dx goodies. There has even been Chinese activity on RTTY!

Roger, N4RR, is back on the airwaves. He has his 204BA and his 5 el 15 meter yagi installed at 70 foot. He has been worked on the 145.19 repeater recently with his two meter array and 10 watts. He is looking into a new two meter amplifier to make it into the machine regularly.

Our Iowa City connection has whispered to us that Dave, N0AFL will have a new Henry amplifier in line very soon. Dave's old amplifier then makes its way to K0GVB's shack and most probably will be used heavily on 160 meters by Gary. With the advent of the the 160 meter high power operators, it is getting to be more competitive and extra tough for the 100 watt operators to make DX QSOs. Lets face it it is hard to find 10 db of antenna gain to compensate for their fellow down the block running a KW!

K0CF, has just purchased a new computer. Craig is looking for a couple of people to share the purchase of 10,000 mailing labels. The labels are 5/16 by 5 inches the cost is \$70.00 per box. This size is just right for filling up the report box on the EIDX QSL cards. Any help?

Some of the members are busy with antenna projects. W0SHL, Doug, has purchased the KT34XA. Doug should have it nearly all installed by the club meeting.

W0MP has installed a 402BA at 70 foot (Roger's old one). Gayle, W0FD, has ordered the new Discoverer 40 meter beam. He will pick it up at the CVARC Hamfest so it should be going up very soon afterwards. Gary, K0GVB, purchased a new windmill tower recently. He plans on putting up some interesting antennas! K0GQ, Jeff, completed a new antenna tuner over the summer months. Right now Jeff's antennas are all close to 50 ohms but with the new tuner you can be on some long wire arrays for the low bands from him. Jeff has a forrest in his back yard with plenty of potential antenna supports!

N6OW is Keith (K0JBY). Keith is the newest Extra Class EIDX'er! Keith hopes that new call sign gives him that extra edge in the DX pile ups. Keith has his 20 and 40 meter arrays in line again ready for another year of contest fever. Congratulations on the new license Keith!

N8OH, Jack, has his RTTY running smoothly. He recently added a new monitor to his latchup and is enjoying HF and two meter RTTY as well as press SWLING with his little yaesu 757.

W0IZ and K0GQ are proud recipients of the coveted R-100-Q certificates!

K0VZR, Tom, is the trustee of the Jim Smith Heard Island Expedition slide show. If you know of any club that is interested in using the slides for a program feel free to contact Tom.

Three of our club members attended the W9DXCC bash in Chicago this month. W0EJ, N4RR, and W0SR all gave the event high marks. The highlights included meeting Father Moran 9N1MM and the N2AA contest production.

Wayne, W0RU, had his 100 foot tower topple over in an August storm. The mishap occurred when a large adjacent oak tree fell on a set of guy wires.

This is the last Newsletter I will be publishing. Thanks for your cooperation in putting it together!

de W0MP

Thanks to the following for inputs to the Newsletter: W0MJN, K0CF, K0LUZ, W0SHL, W0EJ, and AK0H!

Russian Regional QSL Bureau...

Dear fellow ham operators.

The addresses of all Soviet local QSL bureaus that you find here have never been published before for a variety of reasons. This is the first major breakthrough. All information is current and was received through a reliable source in the USSR.

Oblasts (districts) are listed by their numbers (of 'R-100-o' award). Corresponding amateur region number and first letter of the suffix are indicated.

If oblast is non-existent, you'll find a dash in place of the address.

When writing in English, please add the following to each address:

Radiotekhnicheskaya Shkola DOSAAF, QSL burd (1) (i.e. Radiotechnical School DOSAAF, qsl bureau).

Addresses in Russian are also included. They are complete, you do not have to add (1).

A few words on 'what is what':

(prosect -avenue), (ulitsa-street), (pereulok-lane),
(proezd-passage), (shosse-highway), (bulvar-boulevard),
(naberezhnaya-embankment).

When sending a letter "do not" enclose IRCs or currency - it is not permitted by the Soviet authorities.

If you have comments, corrections, questions or additional info, you are very welcome to write to: P.O.Box 715, Brooklyn, NY 11230

73 and happy QSLing,
Ed Kritsky, KA2MXO

Editors note: the new Soviet callsign changes make the following list a little difficult to decipher but with the last EIDX newsletter "USSR changes" it is possible!!

DX WANTLIST

DE W8EJ

Because the summer DX activity was slow and the resulting DX Wantlist updates have been slow in coming in, the deadline for updates for the next DX Wantlist has been extended until the October 12 EIDX meeting. If you haven't given me your updates, please do so by then. Note that of those who were fed for no updates last time, all but one are in danger of being dropped this next time.

There seems to be a general decrease of interest in the DX Wantlist. Hopefully, with the onset of fall and the approach of winter, our DXing activities will pick up and interest and use of the DX Wantlist will follow suit.

If, however, there is really a general lack of interest in the DX Wantlist, maybe the future of the DX Wantlist should be re-evaluated. The present policy of automatically dropping those who do not update their listings was designed to weed out the casual DXers on the list and, at the same time, stir renewed interest in those of us really interested in working a new one. To a certain extent this policy has been successful, but now it appears that those participating in the DX Wantlist will be substantially reduced.

Some participants report giving one ringers to those needing a country only to find that the "needee" was too busy to be bothered to get on the air. Needless to say, after a few unsuccessful attempts to alert a "needee" to a new one, no more one ringers to that person are attempted.

Is the DX Wantlist a tool whose usefulness has passed? Does the DX Wantlist need to be modified to make it more useful to those using it? Make it smaller? Or bigger? Include more information or less? Or should it be overhauled completely? One suggestion from one of the users was to take a poll of the users and include only the top 100 wanted countries in the list. Should the DX Wantlist just be allowed to die a peaceful death?

Think it over and let's discuss it at the next meeting.
